

## Advanced Digital Controller

*NEW* Integrated "Auto-Start" Option

FoamPro 2000 and 3000 Series proportioners are now available with an optional programmable power-up mode, which automatically arms your system for service. The operator no longer needs to push the red button for start-up. It's automatic with the supply of electrical power. Ideal for departments utilizing foam on initial attack and perfect for compressed air foam systems. Also, an additional rear port has been added for full-time Remote Start/Stop and Dual Tank operation. This allows for simultaneous use of these two features.

*Full-time functions  
of Remote Start/Stop  
and Dual Tank are  
now available  
with additional port.*

### Features & Benefits:

- Increased firefighter safety
- Same FoamPro ease of operation and dependability
- One less procedure required
- Complete integration of operational functions
- Ideal for CAFS
- Simultaneous operation of Remote Start/Stop and Dual Tank options
- Easily to retrofit
